JBird Classic Handicap Scramble Format Explained

The goal of the ABCD Handicap Scramble is to create 30 teams that are within one shot of each other by total team handicap. No strokes will be given during the event, but any ties will be decided by a team's total handicap. All tiebreakers will go to the team with the higher handicap total.

Line up all 120 players from best to worst handicap and split into 4 groups of 30 players to achieve your A-B-C-D flights

- Max lowest handicap is +3.0
- Max highest handicap is 15.0 (anyone higher than a 15.0 will be adjusted back to a 15.0. Using too high of a handicap throws off the 1-shot rule)

Total Team Handicap is determined at 35% of total handicaps, which are also weighted by flight:

- A Players = 40% of handicap
- B Players = 30% of handicap
- C Players = 20% of handicap
- D Players = 10% of handicap

E X A M P L E

Team 1

- A Player: +2.0 (40%) = -.80
- B Player: 3.3 (30%) = .99
- C Player: 7.7 (20%) = 1.5
- D Player: 13.1 (10%) = 1.31

Total = $3.0 \times 35\%$ = 1.05 Team Handicap

Team 2

- A Player: +1.0 (40%) = -.40
- B Player: 4.2 (30%) = 1.26
- C Player: 8.6 (20%) = 1.72
- D Player: 15 (10%) = 1.5

Total = $4.08 \times 35\%$ = 1.428 Team Handicap

According to handicaps, Team 1 has better players, so in the event of a tie Team 2 would win the tiebreaker

Original scores -12

Team 1 Handicap Score = -13.05 vs Team 2 Handicap Score = -13.428
